DEVELOPS RICH ORE AT JESSUP

IMPORTANT DEAL INVOLVING
LARGE TERRITORY IN BEST
PART OF DISTRICT.

A deal which involves some of the best mining properties in the Jessup mining district was consummated in Lovelock the early part of the week when A. D. LeRoy secured a bond and lease on the Gold King No. 1 claim from Messrs. Mackendon and Taylor. No figures are given out at this time, but from the fact that the property in question is ideally located it is a certainty that the money involved will run well into the thousands of dollars.

Before returning to camp Mr. LeRoy stated that he had secured a choice piece of ground and he expressed himself as highly gratified. The property in question lies in the very heart of the mineral zone of the Jessup district and is practically surrounded by good properties. While doing some prospecting on the surface recently Mr. LeRoy uncovered a big ledge of quartz which equals any found in the district. The ledge measures fully six feet in width and from the panings taken from the cut it is estimated that the values will run on an average of close to \$15 or more in gold to the ton. The new owner intends to strip the ledge for some distance and determine the exact trend, after which he will start a shaft.

"It is my intention," said Mr. LeRoy, "to do a little prospecting and further open up the ground. When this is done a strong company of western capitalists will be formed and ample funds will be provided to carry out development on an elaborate scale. It will perhaps be a matter of sixty days before real work is commenced, but when it is once started there will be no cessation until the property is thoroughly and systematically developed. The location, formation, and in fact every condition is the most favorable to finding something and it is my candid opinion that when the proper depth is attained we will be able to class our new acquisition as a regular producer."

Mr. LeRoy says that many of the property owners throughout the big district is preparing for an active campaign of development during the coming fall and winter months and that he believes that there will be things doing in the camp within the next few months. — Lovelock Review.

REFUSED TO BUY TELEGRAPH.

Sixty-five years ago, on April 1, Professor Morse, accompanied by his associates, stood before congress and offered to sell the patents on the electric telegraph for \$100,000. After a long and bitter debate congress appropriated \$30,000 for the construction of a line between Washington and Baltimore in order that the merits of the invention might be fully tested, says the Electric News.

It is recorded that President Polk thought the invention a good thing

IN BANKRUPTCY.

IN THE DISTRICT COURT OF THE United States, for the District of Nevada.

In the matter of Francis C. Moore, Bankrupt.
To the Honorable E. S. Farrington, Judge of the District Court of the United States, for the District of Nevada.

Francis C. Moore, of the town of Tonopah, Nye county, Nevada, for the said district respectfully represents:

That on the 29th day of October, 1909, he was duly adjudged a bankrupt under the acts of congress relating to bankruptcy. That he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of such act, and with the orders of the court adjudging his bankruptcy.

Wherefore he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under the said bankruptcy laws, except such debts as are excepted by law from such discharge.

Dated this 20th day of May, A. D. 1910.
FRANCIS C. MOORE,
Bankrupt.

ORDER OF NOTICE THEREON.
On this 3d day of September, 1910, on reading the foregoing petition, it is ordered by the court that a hearing be had upon the same on the 17th day of September, 1910, before the said court at Carson City, in the said district, at 10 o'clock of forenoon, and that notice thereof be published in the Tonopah "Bonanza," a newspaper printed in the said district, and that all creditors and other persons in interest may appear at the said time and place, and show cause, if any they have, why the prayer of the petitioner should not be granted, and

It is further ordered by the court that the clerk shall send by mail to all known creditors copies of the said petition, and this order addressed to them at their place of residence as stated.

Witness the Honorable E. S. Farrington, Judge of the said court, and sealed with the seal thereof, at Carson City, at the said district, on the 3d day of September, 1910.

(Seal U. S. District Court.)
T. J. EDWARDS,
Clerk.

\$3.50 Recipe Cures Weak Kidneys, Free

Relieves Urinary and Kidney Troubles,
Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and Back.

Wouldn't it be nice within a week or so to begin to say goodbye forever to the aching, dribbling, straining, or too frequent passage of urine; the forehead and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a quick recovery, you ought to write and get a copy of it. Many a doctor would charge you \$3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K1206 Luck Building, Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has a great healing and pain-conquering power.

It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.

for the government to own, but the postmaster general, in a long report, gave as his opinion that the revenues could never be made to cover the expenditures in the telegraphing of messages. Today, in this country alone, the Morse systems are capitalized at \$220,000,000. But this little anecdote is seldom told by the officials of the Western Union Telegraph company, for it is a matter of history that Professor Alexander Graham Bell offered to sell his telephone patents to the telegraph company for the paltry sum of \$30,000, but the officials of that company smiled and declared the invention a toy, without commercial value. Today there are more than five million telephones in use in this country, earning \$150,000,000 annually.

PROBING DISASTER ON NORTH DAKOTA

NEWPORT NEWS, Va., Sept. 11. The board of inquiry, appointed after the North Dakota accident yesterday by Rear Admiral Schroeder, commander-in-chief of the Atlantic fleet, began its investigation of the disaster today. There seems no doubt that the immediate flooding of the fire room was the only means of averting the destruction of the great ship and the annihilation of its hundreds of men.

The closeness of the fire to the magazine, stored with powerful explosives, made imperative the instantaneous extinguishing of the flames. That fatalities were so low was due to the heroism of many of the crew, who, it is said, fought their way into the flames to drag out their injured shipmates.

WHY HE COULDN'T PAY.

He was a switchman in a small town up state. When it came time to pay his board bill the first of the week he complained that work had been scarce and he had not been able to save enough. So his landlady, not with any good grace, agreed to wait.

It was the same next week, and the landlady, still hoping, kept him. The third week she felt that he had had every chance, and she was determined to get at least some of her money. She stated her request. "Well, I did some work this week," he admitted, "but it was mostly switching empty cars, and we don't get anything for switching empties." —New York Herald.

PREPARING NEW PLANS FOR THE STATE PRISON

State Engineer Boyle, who has been remodeling the prison plans, submitted the preliminary plans to the prison board yesterday. The idea is to make the new plans fit the state and its needs. It is expected that the new plans will be in the hands of the board in a few weeks, when some definite action can be taken. Mr. Boyle has asked for time to make estimates of cost which has been granted him. As his office is crowded with other work, it is keeping him and his assistants hustling to land the plan in proper shape before the board.
